

# FOR PERFECT MIXING

State-of-the-art technology of the pico-twister combined with the excellent material properties of eco-sil and eco-sil speed. Two that simply belong together!

## pico-twister & eco-sil

- ✓ Matched system
- ✓ Materials achieve highest quality values
- ✓ Extremely economical in use
- ✓ Shortened safe working process

**pico-twister** complete  
incl. 2 material reservoirs  
+ 100 mixing tips

Special price

**1,890.- €**

# Two that simply belong together: pico-twister & eco-sil

## pico-twister – state-of-the-art technology

### Dosing and mixing device for 1:1 duplicating silicones

The pico-twister is a mixing and dosing device with state-of-the-art technology for all thin-flowing 1:1 duplicating silicones. The device feeds, doses and mixes the silicones fully automatically and provides exactly the required quantities of material at the touch of a button. Quick couplings allow the connection of all original packaging units (2 x 1 kg and 2 x 5 kg) as well as the optionally available, clear-transparent material reservoirs.

#### pico-twister complete

incl. 2 bottle adapters for 1 kg bottles (eco-sil)  
+ 100 mixing tips

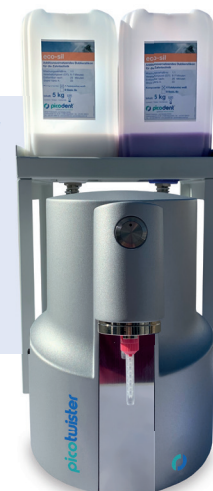

Special price  
**1,690.- €**

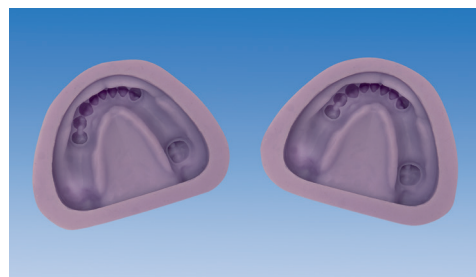

#### pico-twister complete

incl. 2 connection tubes and rack for 5 kg canister (eco-sil)  
+ 100 mixing tips

Special price  
**1,850.- €**

## eco-sil and eco-sil speed – extremely sharp details

Shore hardness: 22 / Hardened colour: lilac

#### AVAILABLE AS:

- 2 x 1 kg bottle per component A and B (2 kg)
- 2 x 5 kg canister per component A and B (10 kg)

### Addition-curing duplicating silicone

Experience extreme detail reproduction with the colour lilac and many additional advantages for maximum precision. Test and see for yourself now!

#### YOUR BENEFITS AT A GLANCE:

- ✓ Enables very fast working
- ✓ Very low viscosity
- ✓ High tearing strength
- ✓ Extremely sharp details due to lilac colour
- ✓ Suitable for all duplications
